OBJECTIVE

Cybersecurity undergraduate at Parul University with hands-on experience in web application penetration testing, vulnerability research, bug bounty hunting, and security automation. Skilled in identifying OWASP Top 10 vulnerabilities using tools like Burp Suite, Nmap, Metasploit, and Kali Linux through practical labs and CTF challenges. Certified Ethical Hacker (CEH) with a strong interest in offensive security and securing real-world systems, currently seeking a Security Intern opportunity to apply and enhance practical cybersecurity skills.

EDUCATION

Bachelor of Technology in Cybersecurity, Parul University 2023 – 2027 | Vadodara, Gujarat
• CGPA: 7.81/10

Senior Secondary (Science), M S College 2021 – 2023 | Mairwa, Siwan

PROFESSIONAL EXPERIENCE

Hacktify Cyber Security, Cybersecurity Intern 02/2025 – 03/2025 | Remote
• Performed VAPT on web applications and identified OWASP Top 10 vulnerabilities using Burp Suite, Nmap, and Metasploit.
• Supported vulnerability identification and threat modeling to assess and mitigate security risks

Edunet Foundation, Cybersecurity Intern 01/2025 – 02/2025 | Remote
• Developed a Python-based image steganography tool to securely hide and retrieve secret messages within images.
• Implemented password-based protection and enhanced knowledge of Python, cryptography, and image processing concepts.(GitHub link: Steganography [🔗](#))

TECHNICAL SKILLS

Web Security: OWASP Top 10, Reconnaissance, Exploitation, Web application Penetration Testing
Security Tools: Burp Suite, Metasploit, Wireshark, Nmap, Aircrack-ng, Autopsy, FTK Imager
Web Vulnerabilities: XSS, SQL Injection, IDOR, CSRF, SSRF, CORS Misconfiguration
Programming Languages: Python, C, Bash, SQL, Java

ACHIEVEMENTS & ACTIVITIES

- **Hall of Fame Recognition — Palo Alto Networks Responsible Disclosure Program:** Recognized by Palo Alto Networks for responsibly identifying and reporting security vulnerabilities. [🔗](#)
- **Certified Ethical Hacker (EC-Council):** Completed certification covering penetration testing, reconnaissance, vulnerability assessment, and exploitation methodologies. [🔗](#)
- **Cybersecurity Foundation (Palo Alto Networks):** Gained foundational knowledge in network security, cloud security, threat detection, and cybersecurity operations. [🔗](#)
- **Cryptography and Network Security (NPTEL):** Studied cryptographic algorithms, authentication mechanisms, secure communication, and network security concepts. [🔗](#)

Projects

The-Setu– AI-Powered Career Development Platform [🔗](#)

- Tech Stack: React 18, TypeScript, Node.js, Express.js, MongoDB GitHub • Built a full-stack platform with 3 user roles (Student, Mentor, Admin), JWT + OTP auth, and AI features including adaptive learning roadmaps, career prediction, and a Hybrid Job Board (Adzuna API + AI skill matching)
- Designed RAG Based LLM Model to generate personalized learning roadmaps and built an Adaptive Learning Engine that analyzes quiz performance, identifies skill gaps, and dynamically injects targeted remediation steps. [🔗](#)
